FDA COMMISSIONER JANE HENNEY
Docket No. OON- 1396 / OOD- 1598
FDA Dockets Management Branch (HFA-305)
Food and Drug Administration
5630 Fishers Lane, Room 1061
Rockville, MD 20852

Dear Commissioner Henney,

I am writing to express my opposition to the FDA's new **proposed** rules and guidance on genetically engineered (GE) Foods. The agency's voluntary **labeling** and notification proposals are totally inadequate to protect human health, **the environment**, and my right to know. I **fully** support the following:

- All GE foods and food ingredients should be **labeled so I am** informed and have a choice.
- GE foods should not be assumed to be safe and **should be subject** to mandatory pre-market **safety** testing.
- There should be a moratorium on GE foods until **long-term** studies show they are safe for human health and the environment
- **No** GE product, or product containing GE **ingredients**, **should** be allowed to be labeled as organic, ever
- Frankly, I do not think GE crops should be allowed & **all**

Sincerely,

Craig Pittman
